Role:

We are looking for an enthusiastic and skilled Full Stack Developer to join our engineering team. The ideal candidate should have hands-on experience in building high-quality, scalable web applications and should be comfortable working on both front-end and back-end technologies in a dynamic, fast-paced environment.

Key Responsibilities:

- Design, develop, and maintain end-to-end web applications.

- Collaborate with cross-functional teams including Product, Design, and QA to deliver seamless solutions.

- Build responsive, user-friendly interfaces using modern front-end frameworks.

- Develop and maintain APIs and server-side logic for smooth system integration.

- Write clean, efficient, and maintainable code following best practices.

- Optimize applications for maximum performance and scalability.

- Participate in code reviews, troubleshooting, and continuous improvement initiatives.

- Stay updated with emerging technologies and industry trends.

Required Skills & Qualifications:

- Bachelor's, Engineering Degree, or similar field.

- Project experience as a Full Stack Developer or similar role.

- Strong proficiency in JavaScript, HTML5, CSS3, and front-end frameworks such as React.js, Angular, or Vue.js.

- Hands-on experience with back-end technologies such as Node.js, Express.js, Python (Django/Flask), or Java (Spring Boot).

- Experience with RESTful APIs, GraphQL, and database systems such as MySQL, PostgreSQL, or MongoDB.

- Knowledge of Git, CI/CD, and basic cloud deployment (AWS, Azure, or GCP).

- Understanding of software development lifecycle and Agile methodologies.

Preferred Skills:
- Experience in microservices architecture and containerization (Docker, Kubernetes).

- Familiarity with unit testing frameworks and code versioning tools.

- Good understanding of security, scalability, and performance optimization.

Personal Attributes:
- Strong analytical and problem-solving skills.

- Excellent communication and teamwork abilities.

- Self-motivated with a passion for learning new technologies.

- Ability to manage multiple tasks and meet deadlines.

What We Offer

- Opportunity to lead high-impact creative projects for one of India's top automotive tech platforms.
- Creative freedom and ownership over the brand's visual voice.
- Exposure to cutting-edge creative technologies and tools.
- A vibrant, collaborative team that values innovation and initiative.
- Fast-paced growth environment with flexible working opportunities.

About Droom:

Droom is an AI and tech driven online platform revolutionizing the Indian automotive market. Droom has helped 2.5 million+ customers buy, sell, finance, and insure vehicles via Droom marketplace. In order to build trust and convenience, Droom has built an entire eco-system of technology-driven products around used automobiles online, including Orange Book Value (algorithmic used vehicle pricing engine | 725 Mn+ Queries), ECO (tech, AI and IoT driven 1,100+ points vehicle inspection), History (India's largest repository for used vehicle historical records | Database of 250 Mn+ vehicles | up to 50 vehicle historical records), Droom Fintech (Loan & Insurance) and Velocity (last mile fulfillment and delivery services). One of the largest enterprises in the automobile sector like HDFC, IDFC, Yamaha, TVS, Toyota etc use Droom's tech stack as cloud services.

Droom was founded by Sandeep Aggarwal, who is the only tech founder in India to have foundedtwo unicorns back-to-back in the last 10 years backed by an all-star team. Droom is among the most trusted consumer Internet brands in India often recognized for its innovative approach and technology and is backed by marquee global investors including Lightbox, Digital Garage, Toyota Group, Beenext, Beenos, 57 Stars, Lightbox and many multi-billion-dollar family offices in SE Asiaand Hong Kong.

Why Droom:

- Work closely with serial entrepreneur and two-times unicorn founder
- Work with India's most disruptive and innovative online platform for automobile
- Opportunity to leave a lasting legacy and make a meaningful impact as we arepermanently changing how automobiles should be bought and sold
- Work in a highly entrepreneurial environment
- No hierarchies and no work politics but completely merit based culture
- Push your limits and experience new challenges everyday
- At Droom your role is what you carve out
- Solve sector defining and complex problems
- Unmatchable learning and exposure
- A true Silicon Valley style tech and product startup
- At Droom we strongly believe in work hard and play hard
